REF: 16712015 – Sangamon County – Springfield/Pierce Waste Oil

Attn: Mr. Kenneth P. Bechely – Northern Region Manager

Dear Mr. Bechely:

In regards to your letter of April 11, 1983, I have listed
in short what had happened between our Company and Pierce
Waste Oil. Mr. J. Callier and I sat down with Mr. Gould
and he was given the details of what took place with Sloan,
Beaver and Pierce.

(a) They told me they bought out Beaver Oil and would
    be picking up the oil from now on. I told the driver
    it would take me a few minutes to type up a new mani-
    fest and asked for his EPA numbers. The driver told
    me he had a manifest all typed up in his truck and he
    would get it. I mentioned to him about Sloan Valve
    not being mentioned on the manifest and he told me that
    it would be alright for this time.

    Based upon information supplied by the driver for Pierce
    Waste Oil relative to their buy-out of Beaver and our
    past practices in dealing with Beaver, with no difficulties
    further scrutiny of Pierce Company validity seemed un-
    necessary.

(b) No excuse – except being busy with other duties and/or
    that the responsibility became that of someone else,
    neither of which are a good excuse.

(c) The second time Pierce Oil came in I used the numbers
    that were on the manifest he had given to me previously.
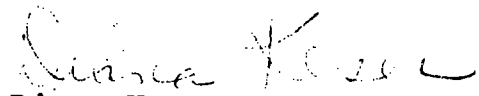

RECEIVED

APR 25 1983

E.P.A. – D.L.P.C.
STATE OF ILLINOIS

Again, as in (a) the validity of the driver's statements and the fact that Il. EPA and Site numbers availability seemed to indicate that further investigation was not warranted.

If there are any further questions regarding this please do not hesitate to call.

Respectfully,

Diana Keser
